

IN THE CLAIMS

Claim 1 (currently amended): A shoe comprising:

a shoe sole including at least one slot formed therein, and
including at least one orifice formed therein,

a first cleat member detachably attached to said at least one slot
of said shoe sole, and including an extension extended therefrom
for attaching ~~to cycle to a cycle~~ pedal, and

a first plate selectively attached to said shoe sole, and including
an opening formed therein to receive said first cleat member, and
to allow said first cleat member to extend out of said first plate,
and to be attached to the cycle pedal, said first plate including at
least one protrusion extended therefrom and engageable into said
at least one orifice of said shoe sole to anchor said first plate to
said shoe sole, said first plate including at least one projection
extended downwardly therefrom for preventing said shoe sole from
wearing.

a second plate selectively attached to said shoe sole when said
first plate is disengaged from said shoe sole, and including an
opening formed therein to selectively receive said first cleat
member, and to allow said first cleat member to extend out of said
second plate, and to be attached to the cycle pedal, said second
plate including at least one protrusion extended therefrom and
engageable into said at least one orifice of said shoe sole to
selectively anchor said second plate to said shoe sole, and
at least one cleat element detachably attached to said shoe sole.

Claims 2-3 (canceled).

Claim 4 (currently amended): The shoe as claimed in claim 1 further comprising at least one spike securing ~~said plate either said first plate or said second plate~~ to said shoe sole.

Claim 5 (canceled).

Claim 6 (currently amended): The shoe as claimed in claim ~~§ 1~~, wherein said shoe sole includes at least one depression formed therein and defined by a peripheral fence, to partially receive said at least one cleat element, and to anchor said at least one cleat element to said shoe sole.

Claim 7 (original): The shoe as claimed in claim 6, wherein said shoe sole includes a bulge extended into said at least one depression thereof, and said at least one cleat element includes a cavity formed therein, to receive said bulge of said shoe sole, and to further anchor said at least one cleat element to said shoe sole.

Claim 8 (original): The shoe as claimed in claim 6, wherein said shoe sole includes at least one aperture formed therein, and said at least one cleat element includes at least one peg extended therefrom, to engage into said at least one aperture of said shoe sole, and to further anchor said at least one cleat element to said shoe sole.

Claim 9 (currently amended): The shoe as claimed in claim 5 1, wherein said second plate includes at least one extension extended therefrom, said at least one cleat element is selectively attachable to said at least one extension of said second plate.

Claim 10 (currently amended): The shoe as claimed in claim 9, wherein said at least one extension of said second plate includes at least one depression formed therein and defined by a peripheral fence, to partially receive said at least one cleat element, and to anchor said at least one cleat element to said ~~shoe sole~~ at least one extension of said second plate.

Claim 11 (currently amended): The shoe as claimed in claim 9, wherein said at least one extension of said second plate includes a bulge extended into said at least one depression thereof, and said at least one cleat element includes a cavity formed therein, to receive said bulge of said at least one extension of said second plate, and to anchor said at least one cleat element to said second plate.

Claim 12 (original): The shoe as claimed in claim 1, wherein said shoe sole includes an outsole, and insole, and a cushioning device disposed between said outsole and said insole of said shoe sole.

Claim 13 (original): The shoe as claimed in claim 12, wherein

said outsole of said shoe sole includes a chamber formed therein to receive said cushioning device.

Claim 14 (original): The shoe as claimed in claim 13, wherein said insole includes an opening formed therein to engage said cushioning device into said chamber of said outsole.

Claim 15 (original): The shoe as claimed in claim 14, wherein said insole includes a cover to enclose said opening of said insole.

Claim 16 (original): The shoe as claimed in claim 1, wherein said shoe sole further includes at least one nut engaged therein, and at least one fastener engaged through said plate and threaded to said at least one nut.

Claims 17-18 (canceled).
